1) **The Social Readjustment Rating Scale** (SRRS) - [Stress and Life Events - Causes of Stress](stressmanagement.co.uk)

To complete the test, an individual must add up the Life Change Unit (LCU) points of the events that have occurred in the last 12 months making a total LCU score.

- An LCU score less than 150 = a 35% chance of developing an illness within the next two years.
- An LCU score between 150-300 = a 51% chance.
- An LCU score over 300 = 80% chance of illness developing, which could become a very serious health risk.

2) **Stress on the body** - Think about how stress impacts your body, mind, behaviour and emotions.
