BUDGETS

Suggestions for Mission Values & Vitality for Departmental Services
Motivation:

The following suggestions are not intended to be prescriptive or definitive, rather a starting point from which people begin a conversation. Budget creation often results in dispute about cherished ideas. The object is to ensure that plans genuinely address the mission of the church and its values. They have to be inspiring. They should help us question why we do things. They should take us beyond functional explanations. For instance: The purpose of ‘Depreciation’ on property is to engage in inter-generational fairness not just tax avoidance and cost spreading.
PRESIDENT

- The President needs to plan - enable, constrain and remain accountable.
- While they may have particular programs for which plans and budgets are made, they should be encouraged to plan for their leadership role.
