1 GLOBAL MISSION CHURCH PLANTING FORMS

How to use this form

This form contains two parts – the Initial Application [pages 4-6] and the Annual Plan and Report [pages 7-8]. The Annual plan and report must be completed after the funds are spent and before the following year's funds can be sent. To download a fillable version of this form and receive more info about Global Mission, please visit ted.adventist.org/departments/adventist-mission

Overview

Please have the church planter(s) complete the relevant portion of the form. After completion, the planter(s) returns the form to the Adventist Mission coordinator/director in their field who enters the date in the online global mission database (mps.adventist.org). As an alternative service, this form can be uploaded at ted.adventist.org/departments/adventist-mission and the data entered by TED Adventist Mission on behalf of the local field.

Notes

- If the Annual plan and report is not completed by the local field and approved by all levels within 12 months, the General Conference will **recall** the funds!
- The **duration** of each project is three years among a Christian context and five years among a non-Christian context [with seven years extension in special circumstances]. Initial applications can be made at any time during the calendar year, but **the official start date for the fiscal year** of each plant is when the General Conference commits funds.
- **The percentage of annual funding levels** from the General Conference and TED stays the same throughout the duration of the project.
- **The Annual Funding Process** is as follows: The GC votes funds and credits them to the TED. Then the TED votes their contribution in addition to the GC contribution and credits the combined amount to the Union. Then the Union votes their contribution which is added to the GC & TED and credits all combined funds to the local field, which does the same.
- The **use of funds** cannot be applied to purchase buildings, but the funds can be used for the following, including: ministry expenses, wages of the global mission pioneer(s), equipment, rental of facility for outreach or worship, and for training and equipping.
- **Closing down the project** can happen in cases where the leaders moved away, the plan was unsuccessful, or for other reasons where the local field decides to discontinue the project. When this happens, the annual plan and report still must be completed to avoid having the funds recalled. If the funds were not all spent or accounted for, then just the remaining unused funds will be recalled.

Anyone may submit this application to the General Conference for an initial concept review to determine if the application is eligible for Global Mission funding (Mail to: scogginsj@gc.adventist.org). Detailed assistance for completing the application is not available from the General Conference. Following the concept review the applicant must work with the local conference or mission to gain financial support from each level of the organization including union and division. Without financial support from each level the application cannot be considered for funding. **When all levels have voted funding for the project the division must submit the proposal** to the General Conference Global Mission office for consideration.

Process after Application Submission
